thatohatsitilodi@gmail.com

Interests

- Reading motivational books especially about successful careers and those that made it in life
- Being on my laptop and practicing python and other languages such as Java and C++
- Writing poetry through the utilizing the Microsoft Pack such as word for instance

As a recent student from the University Of South Africa who is studying Bachelor of Science in Informatics, I am extremely interested in the IT and computer clerk, receptionist or any cashier opportunity . I am confident that I am well-prepared to be a valuable contributor to the company's growth and success. Through my academic journey, I applied a strong focus on building my file management and documenting abilities. I am detail-oriented and meticulous when managing competing priorities within tight deadlines. I work best in roles where utilizing coding allows me to make a positive impact while using creative problem-solving to resolve issues and achieve goals. My academic strengths have greatly contributed to the development of my communication, decision-making, and planning skills. I bring clear and effective communication to build professional connections with co-workers, management, and customers. I would welcome the opportunity to further discuss the details of my experience and attributes which I believe will be an asset to the team. Please review my attached resume for additional insight into my background. Thank you for your time and consideration.
